

AIR RESOURCES BOARD

2020 L STREET
P.O. BOX 2815
SACRAMENTO, CA 95812

November 18, 1993

Ms. Felicia Marcus
Region IX Administrator
United States Environmental Protection Agency
75 Hawthorne Street
San Francisco, CA 94105

Attention: David P. Howekamp

Dear Ms. Marcus:

Enclosed are three copies of revisions to the State of California Implementation Plan for Achieving and Maintaining the National Ambient Air Quality Standards. These revisions consist of new rules and amendments to existing rules of the following air pollution control and air quality management districts (districts):

Bay Area Air Quality Management District
Great Basin Unified Air Pollution Control District
Kern County Air Pollution Control District
Mendocino County Air Quality Management District
Monterey Bay Unified Air Pollution Control District
Sacramento Metropolitan Air Quality Management District
San Diego County Air Pollution Control District
San Joaquin Valley Unified Air Pollution Control District
San Luis Obispo County Air Pollution County District
Santa Barbara County Air Pollution Control District
South Coast Air Quality Management District
Ventura County Air Pollution Control District
Yolo-Solano Air Quality Management District

Also enclosed is Air Resources Board (ARB) Executive Order G-125-108 adopting the district rules as revisions to the California State Implementation Plan (SIP). The districts are authorized to adopt and enforce the rules by California Health and Safety Code Section 40001. The ARB is authorized to adopt the rules as revisions to the SIP by Health and Safety Code Sections 39601, 39602, and 41650 through 41652. Enclosure A lists the specific rules that were adopted or amended by the districts and that have been adopted as revisions to the SIP by the ARB through Executive Order G-125-108.

To meet the U.S. Environmental Protection Agency (EPA) criteria for determining that rule submittals are administratively and technically complete, we have enclosed evaluations of the effects of the rules on emissions, evaluations of the rules' consistency with 40 CFR, Part 51, and all other supporting documentation provided to us to date by the affected districts. We have made every reasonable effort to obtain from the districts all documentation necessary to comply with the EPA's SIP Completeness Policy.

Ms. Felicia Marcus

-2-

We understand that, according to Section 110(k)(1)(B) of the federal Clean Air Act, the EPA will determine within 60 days of the Administrator's receipt of a SIP revision, but no later than six months after the date by which the state is required to submit the revision, whether the rule packages within the revision are adequately complete to review for approvability. The ARB staff may receive additional materials from affected districts within the next few months. We will, of course, forward those additional materials to you.

If you have any questions or would like to discuss this SIP submittal, please contact Ronald A. Friesen, Assistant Chief, Stationary Source Division, at (916) 445-0656; or if I may be of assistance, contact me at (916) 322-2890.

Sincerely,

Michael H. Scheible
Deputy Executive Officer

California Environmental Protection Agency
AIR RESOURCES BOARD

Executive Order G-125-108

WHEREAS, the rules identified in Enclosure A have been adopted or amended by the following air pollution control and air quality management districts (districts):

Bay Area Air Quality Management District
Great Basin Unified Air Pollution Control District
Kern County Air Pollution Control District
Mendocino County Air Quality Management District
Monterey Bay Unified Air Pollution Control District
Sacramento Metropolitan Air Quality Management District
San Diego County Air Pollution Control District
San Joaquin Valley Unified Air Pollution Control District
San Luis Obispo County Air Pollution Control District
Santa Barbara County Air Pollution Control District
South Coast Air Quality Management District
Ventura County Air Pollution Control District
Yolo-Solano Air Quality Management District

WHEREAS, the districts are authorized by California Health and Safety Code Section 40001 to adopt and enforce the rules identified in Enclosure A; and

WHEREAS, the rules have been submitted to the Air Resources Board for inclusion in the California State Implementation Plan as reasonably available control measures for limiting emissions of air pollutants within the districts, or as administrative rules; and

WHEREAS, the Air Resources Board has determined that these rules are necessary to meet the requirements of the federal Clean Air Act; and

WHEREAS, the Air Resources Board is authorized by California Health and Safety Code Sections 39601, 39602, and 41650 through 41652 to adopt district rules as revisions to the California State Implementation Plan.

THEREFORE, IT IS ORDERED that the Air Resources Board hereby adopts the new and amended local district rules identified in Enclosure A as revisions to the California State Implementation Plan.

I certify, pursuant to 40 CFR Section 51.102(f), that the rules identified in Enclosure A were adopted or amended after notice and public hearings as required by 40 CFR 51.102(a) and (d).

Executed this 18th day of November, 1993, at Sacramento, California.

CALIFORNIA AIR RESOURCES BOARD
